To register your iClicker remote:

1. Go to the iClicker Registration Site.
2. Choose responses to the two questions to match the below image:

3. Click the text “Click here” in the blue highlighted area.
4. Fill in the form with your information, verification code, and acknowledgement of the iClicker policy and terms.
5. Click Register.

You do not need to register your iClicker each semester in Canvas. It will be remembered from semester to semester for you. You can also register new clickers without having to remove any previous clickers.

If you cannot read the iClicker remote ID, please stop in with your clicker and someone can confirm your iClicker remote ID. We recommend keeping the number some place with your clicker. Stop by the Center for Teaching Innovation, 123 Computing & Communications Center building (on the Ag Quad, near Bailey Hall), between 9:00 a.m.- 5:00 p.m., Monday-Friday.
